## Professional Profile

Currently I am working as team leader and backend developer for Carvajal Espacios in their IT Projects division

During my experience as a developer, I've worked with the following technologies:

- Web development
- Android (Java and XML -old fashion way-)
- JavaScript, jQuery and AngularJS
- JavaSE, JavaEE
- Python, Django
- C#, .Net
- PostgreSQL, MySQL
- Linux Server configuration and maintenance (Especially but not exclusively LAMP environments)

## About me

I am an ethical, creative and holistic telematic engineer who is also passionate for web/mobile development and rock music.
